SUMMARY

Fourth-year Digital Economy student (International Program) at the National University of Management, moving a background in digital markets and data into UX/UI design. Reliable, deadline-driven collaborator in team environments, with a strong drive to learn new methodologies and tools. Focused on designing user experiences that combine usability with business and market outcomes.

EXPERIENCE

UX/UI Intern Jun 2025 - Dec 2025

Ministry of Post and Telecommunications

- Ran end-to-end design for a Case Reporting & Content Management System, conducting user research and stakeholder interviews to define technical requirements.
- Developed high-fidelity wireframes, user flows, and interactive prototypes in Figma to streamline system navigation.
- Synthesized research into personas and scenarios that guided development and digital safety campaign strategies.
- Produced visual assets and presentation materials for the Cambodia Community Tech Center and local product marketing.

Marketing Intern Apr 2023 - May 2023

Spring Education Center

- Executed sales initiatives, marketing plans, and customer data collection.
- Managed social media content to increase brand awareness and audience engagement.

SELECTED PROJECTS

Online Safety Reporting System Jul 2025 - Aug 2025

- Designed an intuitive platform enabling users to report online threats and harassment.
- Built a clickable interactive prototype for realistic user testing and workflow validation.

Think on One's Feet Symposium Jul 2025 - Nov 2025

- Led visual design execution for posters and presentation slides, maintaining brand consistency.
- Promoted campaigns through social media and direct outreach, increasing registration and attendance.
- Assisted sponsorship acquisition by identifying target contacts and managing communication pipelines.

Lava, a decentralised delivery app 2023 - 2025

- Managed social channels through promotional graphics and short video.
- Documented workflows, user journeys, and feature specifications for design and engineering handoff.

Food Recipe App Prototype Feb 2025 - Mar 2025

- Built low-fidelity wireframes defining layout and architecture for a recipe application.
- Created an interactive prototype to demonstrate UI improvements and test user interactions.

EDUCATION

Bachelor of Science in Digital Economy 2023 - 2026

National University of Management, Faculty of Digital Economy

International Program. GPA 3.5. Expected graduation August 2026.

UX/UI Design Course Jan 2025 - Mar 2025

IT STEP Academy Cambodia

General English Program and Diploma Program 2021 - 2025

Australian Center for Education

Diploma included public speaking, listening and notetaking, reading and vocabulary.
